The Department is aware that supply production of solutions by a manufacturer called Baxter has been interrupted as a result of Hurricane Helene. The Department is seeking further situational awareness from the long-term care provider sector. Please complete the 2024 IV and Dialysis Fluid survey by 12pm on 10/11/2024 to help the Department assess the situation.

Questions about the content of the survey can be directed to [lrcresidentialsurvey@health.ny.gov](mailto:lrcresidentialsurvey@health.ny.gov). Technical questions about access to the survey can be directed to [lrcresidentialsurvey@health.ny.gov](mailto:lrcresidentialsurvey@health.ny.gov).

First name of person completing this survey: \*

Last Name of the person completing this survey: \*

Email Address of the person completing this survey:

Cell phone number (in xxx-xxx-xxxx format) of the person completing this survey:

Does your facility or provider group administer intravenous solution? \*  Yes  No

Does your facility use Baxter supplies for intravenous solutions or dialysate?  Yes  No

If yes, for intravenous solutions, are your supplies being affected:  Now  Anticipated to be affected in one week  Anticipated to be affected in two weeks or longer

if Yes, for Dialysate, are your supplies being affected:  Now  Anticipated to be affected in one week  Anticipated to be affected in two weeks or longer

Some IV fluid conservation measures require the use of smaller IV bags(50ml). Do you have sufficient supply of smaller IV bags?  Yes  No

Is the current interruption of IV fluid supplies involving Baxster affecting your ability to provide treatment to residents or patients?  Yes  No
